We will also keep watching the searches that bring people to the menu.

8 Notes and definitions

This report

May – September 2026 (May 1, 2026 – Sep 30, 2026). Compared with December 2025 – April 2026.

Google Business Profile last synced Oct 12, 2026. Search Console last synced Oct 12, 2026. Google Analytics last synced Oct 12, 2026.

What the figures mean

Profile views
Times your Business Profile appeared in Google Search and Google Maps, on desktop and mobile. Source: Google Business Profile.

Profile actions
Calls, website clicks and direction requests made from your Business Profile. Source: Google Business Profile.

Search terms
What people searched for before they saw your profile. Google reports a count for common terms and only "fewer than" a number for rare ones, which are shown as "< N". Source: Google Business Profile.

Search clicks, impressions and click-through rate
Clicks to your website from Google Search, how often your pages appeared, and clicks as a share of appearances. Source: Google Search Console.

Average position
Where your pages ranked in Google Search on average, weighted by how often each appeared. Lower is better. Source: Google Search Console.

Top searches and top pages
Added up from the highest-ranking searches and pages Google reports for each month. They show what mattered most; they are not totals of every search.

Branded searches
A search is branded when, ignoring capital letters, apostrophes and punctuation, it contains the name of the business (Synthetic Alpha) or one of its locations. Branded searches are left out of the list of top searches.

Visits from search
Website visits that began with an unpaid Google search. Source: Google Analytics.

Reviews
Counted from your Google reviews. Reviews Google no longer lists are not counted. Average rating covers all reviews up to the end of the period.

Business Profile days compared
Business Profile figures cover 153 days this period and 151 days in the comparison.
